

EMBRACING PURPOSE

At some point in our lives most of us realize...something's missing, but we can't figure out what. *Embracing Purpose* offers a unique *self-discovery process* that helps you find your answers and get the life you want – a rich, purposeful life.

What Sets Embracing Purpose Apart

It's universal - the longing to make a difference. To have an impact on the world around us. We want to know that we matter. *Embracing Purpose* is designed to satisfy that longing.

The self-discovery component sets *Embracing Purpose* apart from other women's studies—this is the element missing in most books on purpose, it's the secret sauce. How so? To discover your God-given purpose you must know who you are—and, the fact is, most of us don't. We don't know how God designed us with gifts, talents, values, passions and life experience that equip us to partner with Him in kingdom purposes. The self-discovery exercises help participants answer four key questions:

- *Who am I?*
- *What am I to do?*
- *How am I to do it?*
- *What keeps me stuck?*

When completed, participants have a keen understanding about their unique design and God-given purpose, the beginning of a purpose plan, and clarity about common roadblocks on the path purpose.

Imagine what might happen if the women in your church and community began to reclaim their identity and live with intention...if they began to find, love and live their God-given purpose...if they put their unique passions and talents to use in a way that furthers God's kingdom.
